Mycopar®

Mycobacterium Paratuberculosis Bacterin

Mycopar®

For use in calves
25 x 1 Dose/0.5 mL vials

Serial
No.:
Exp.
Date:

Indications: Mycopar® is a whole cell bacterin containing inactivated *M. paratuberculosis* bacteria suspended in oil. For vaccination of calves as an aid in the control of clinical disease due to *Mycobacterium paratuberculosis*. Vaccination will confer protection against clinical disease, but does not necessarily prevent infection.

Storage: Store at temperatures between 0° and -5°C for extended periods. Store between 2-7°C for a maximum of one year prior to use.

See reverse side for complete information.
