

Research payments - YTD December 2013

This report includes payments totaling about \$97 million made in 2013 for research studies started since January 1st, 2010 in which the principal investigator or lead researcher is a US-licensed healthcare professional. The payee is responsible for management and subsequent distribution of the research payment. Payments do not include certain fees paid by GSK to third parties in connection with research studies (such as contract research organization fees, central Institutional Review Board fees,...). We are committed to providing as complete and accurate a disclosure as possible. However, despite our best efforts, from time to time errors can occur. As a result, we have established internal processes to continually review and validate our accuracy and disclosures, and to correct those records when errors are identified. Questions about the disclosure report can be addressed to GSK's Customer Response Center at 1-888-725-0016. Hours are Monday through Friday from 8:30 AM to 5:30 PM Eastern Time.
